Reasons for Allowance

Applicants' response to the last Office Action, filed January 21, 2005 has been entered and made of record.

The following is an examiner's statement of reasons for allowance:

Independent claims 3 and 4 are allowable over the prior art of record.

Independent claims 3 and 4 recite the limitations of : black adaptation correction for correcting the image data, such that the color of image data produced from the image handling device are similar; converting RGB to XYZ, then to LMS, then to Xop, Yop, and Zop in an optical color space; performing image editing on Xop, Yop, and Zop to obtain Lab value and converting the edited Lab value back to Xop, Yop, and Zop, then to LMS, then to corrected XYZ value; converting corrected XYZ value to CMY value, wherein the image data processing does not depend on a dynamic range of the image handling device. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

The closest references of US 5754682 to Katoh and US 6362830 to Walraven (combination) disclose a color correction method for converting XYZ to LMS and Lab, and correcting the color converted. However, they do not teach the limitations of cited above.

In view of the amended claims and the Applicant's arguments, the rejections and objections to claims 3-4 are expressly withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
